3-IN-1 BATHING SOLUTION

Designed to assist

The Orchid Medicare 3-in-1 Bathing Solution is designed to assist carers in all aspects of providing personal care and covers showering, bathing & toileting.

The 3-in-1 is made up of a bathing cradle and a base transporter that is designed to fit through unmodified door frames, facilitating safe patient transport. Fully assembled, it is an ideal shower chair which can be positioned with ease using the waterproof electronic controls, and fits perfectly over our commode chair for toileting purposes.

The bathing cradle is detachable for use in the bath and will support a patient in a reclined position allowing greater immersion in the water. The cradle features brackets along the frame to enable patient transfers using a hoist. The mesh fabric is easily removable and features a polygiene antimicrobial coating. The cradle and base are manufactured using stainless steel, and a quality finish is guaranteed with the polyester powder coating. Four standard sizes available, but if you require a bespoke option, please contact us.
